Attention: Dean Yasuda  
Environmental Engineer

Subject: Oxbow Site Independent Remedial Action Report

Enclosed is a copy of an independent remedial action report for the clean-up of boiler fuel at the Boeing Oxbow Corporate Park as discussed between you and Rob Bonnett on March 7, 1995. Approximately 1.5 cubic yards of soil were removed and the clean-up level used was the Model Toxics Control Act Method A level of 200 ppm. This project is considered to be completed and no further action will be taken by Boeing.

If you have any questions please call Carl Bach at 544-1225.
